

## Office of the Director General of Civil Aviation

### Proposed amendment to CAR Section 3 Series 'C' Part VIII - Minimum requirements for grant of permit to operate Scheduled Regional Air Transport Service.

Existing Paragraph	Proposed amendment
3.2.1 The applicant shall acquire a fleet of minimum three aircraft/multiengine helicopters either by outright purchase or through lease, within a period of one year. At the end of two years the airline shall be required to operate with a minimum five aircraft. To facilitate the start of operations, operators will be permitted to operate with one aeroplane/helicopter and will be given one year's time from the date of securing operator's permit, to have the fleet size of three aircraft.	3.2.1 The applicant shall acquire a fleet of minimum three aircraft/multiengine helicopters either by outright purchase or through lease, within a period of <del>one</del> <b>two</b> year. At the end of <del>two</del> <b>five</b> years the airline shall be required to operate with a minimum five aircraft. To facilitate the start of operations, operators will be permitted to operate with one aeroplane/helicopter and will be given <del>one</del> <b>two</b> years time from the date of securing operator's permit <b>or start of operations</b> , to have the fleet size of three aircraft.
